ESTHER

Esther was born from the idea of turning the iconic Baloon armchair into a sofa. The main feature of the sofa is its captivating curved design, reflected by the frame of the tilted backrest and the seat. The backrest creates a single element with the rounded armrests, while the seat is composed of two large cushions. The whole structure is kept suspended by two hidden recessed feet. The footrest is made of two separate elements that have the same seat size of the 210 cm sofa, so that they can be placed one against the other to create a real chaise-longue. Covers for both pieces are not removable and can be upholstered only with the two bi-elastic fabrics Dubois and Gstad.
