

 ARMANI / CASA

DVORAK

Glassware

## DVORAK

## DESCRIPTION

Set of transparent crystal glasses with 18-carat gold decoration, with a vertical irregular broken line pattern. Crystalline is a resistant colourless glass that contains 18% lead oxide; it is more resistant than crystal but has the same light reflection. The percentage of lead oxide enhances the pleasure of holding those glasses, since this material is lighter than average crystal.

Armani/Casa logo sanded on the base of each glass.

Only wash with water and neutral soap; not dishwasher safe.

MADE IN SLOVENIA.

## DIMENSIONS

Stem cocktail glass diameter	cm 12.4 x 15.6 h
